

Right place, right time, right now: Supportive Housing in Richmond!

As a community united, we stand strong!

- Housing is a human right.
- Everyone deserves a home and help when needed.

Call to action:

We call on the council to approve the modular housing initiative to help people out of homelessness and women experiencing abuse. The program is an important step in ameliorating the lives of the most vulnerable and marginalized members of our community. The opposition and fear against the initiative are largely based on unfounded claims of danger. We must not allow those in positions of power and privilege to impede on our responsibilities to those in need. The initiative is an opportunity to build a stronger, more compassionate, more enriching and more equitable community we can all call home.

我們若選擇不正視自己對無家可歸者的歧見及刻板印象以主張他們不值得幫助、或應「離自己遠一點」，是利用無家可歸者的社會、政治、經濟弱勢及邊緣化進行剝削。
